Main lobby and entrance of the new Nokia headquarters in Espoo. Lukkoexpert Security Oy, a subsidiary of Suomen Helasto Group, was the locking system-subcontractor for the building project.

Annual General Meeting

The Annual General Meeting of Suomen Helasto Oyj will be held at 11 a.m. on 6 February 2001, on the premises of Suomen Helasto Oyj at Keskuskatu 18, Seinäjoki, Finland. All shareholders entered in the list of company shareholders at the Finnish Central Securities Depository Ltd by 26 January 2001 are entitled to attend the Annual General Meeting. Shareholders whose shares have not been transferred to the book-entry securities system are also entitled to attend, provided that they were entered in the company's shareholders' register before 27 October 1995. At the Annual General Meeting these shareholders should present their share certificates or other proof that their title to the shares has not been transferred to a book-entry securities account. Shareholders wishing to attend the Annual General meeting must notify the company head office no later than 2 February 2001 by telephone (+358 6 420 6200, ask for Kimmo Uusimäki) or by mail (Suomen Helasto Oyj, Keskuskatu 18, FIN-60100 Seinäjoki, Finland).

Dividend distribution

The Board of Directors of Suomen Helasto Oyj will propose to the Annual General Meeting that the matching date for dividend distribution should be 9 February 2001 and that the dividend distribution date should be 16 February 2001. Dividend will be paid to all shareholders who are entered on the list of company shareholders at the Finnish Central Securities Depository Ltd on the matching date.

Economic reviews

The Annual Report of the Suomen Helasto Group is available in Finnish and English. During the financial year, the Group will publish three interim reports: on 22 March 2001, on 14 June 2001, and on 25 September 2001.

Suomen Helasto Group's turnover increased 8.2% during the financial year, reaching the highest level in the Group's history, FIM 150.4 million. This is more than satisfactory, considering the fact that the actions taken in 2000 were mainly aimed at significantly improving the profitability of the Group's current companies. The investments we made in products, customer services, and data communications systems paid off. It appears that this prosperous trend will continue in 2001 as regards continued positive turnover and profitability development.

The economic trend appears to be positive for the Group companies' business areas. The growth prognosis made by VTT Building Technology (Technical Research Centre of Finland) for the domestic construction markets was 8% in 2000. The growth rate for the building sector is estimated to be around 4% in 2001. Construction is mainly concentrated in growth centres, but is also fairly active in other parts of the country. Positive development is expected to continue in the short term. According to a report on the economic trend by Finnsecu-

ry, the market prognosis for structural security products in 2000 is FIM 850 million, and growth for 2001 is estimated at 8%. For Suomen Helasto, this outlook offers many possibilities.

Group growth and performance are influenced by trends in the security market, the emphasis on renovation work in the building sector, the capacity utilisation rate in industry, and investment demands. Particularly in our locking and security companies, the outlook for growth is excellent, both in current and new geographical market areas in Finland. To realise and strengthen this growth, our group's locking and security companies will begin to use a more uniform operations model in 2001, aiming at increasing the number of offices and the geographical coverage during the following years.

The actions performed in 1999 and 2000 to develop our company's operations, internal efficiency, and spirit of enterprise continue to move forward. In addition, the continued strengthening of business concepts, products and services offered in the fields of know-how, in the business channels and

technologies, bring new possibilities and challenges to our Group's business areas.

The quotation for Suomen Helasto shares remained low, and the stock exchange was slow in the past financial year. However, some larger, individual stock trades were made with our company shares. The slow exchange and low quotation was mainly caused by a small hiccup in performance in 1999. We will see if 2001 brings any new developments in the stock quotations for our shares. The aim of Suomen Helasto Group is to continue to be a profitable and competitive investment for its shareholders. This means that, in addition to the outlook and share price, the annual dividend distribution is a significant factor. Our intention is to maintain our reputation as a trusted distributor of dividends. To increase the share amount under trade, the board of directors proposes that the number of shares be increased to 21.4 million, with a capitalisation issue and share division.

A year ago we set a common goal of improving the performance of the Group companies. We reached this goal in 2000, and we would like to thank the Group's staff and partners for this. We now have a good starting point for the next year, and an excellent opportunity to further develop the operational methods improved in 2000. Enthusiasm and success are important factors when facing the challenges of a new financial year.

Seinäjäki, January 2001

Mauno Koskenkorva
Managing Director

Group structure

The Suomen Helasto Group comprises Suomen Helasto Oyj in Seinäjoki and thirteen subsidiaries operating in the Helsinki Metropolitan Area, Turku, Pori, Tampere, Seinäjoki, Jyväskylä and Oulu.

The Group companies are engaged in the wholesale, retail and installation of locking and security systems, construction and furniture fittings and fasteners. In the field of fittings and fastenings, the Group operates throughout Finland. Locking and security services are provided in the Helsinki Metropolitan Area (three companies), Turku, Pori, Jyväskylä, Oulu and Seinäjoki. The Group has no manufacturing of its own.

The Group's operating principles

The Suomen Helasto Group operates in the field of security, locking, fittings and fasteners. The main objective of the Group is to grow in a controlled and profitable manner.

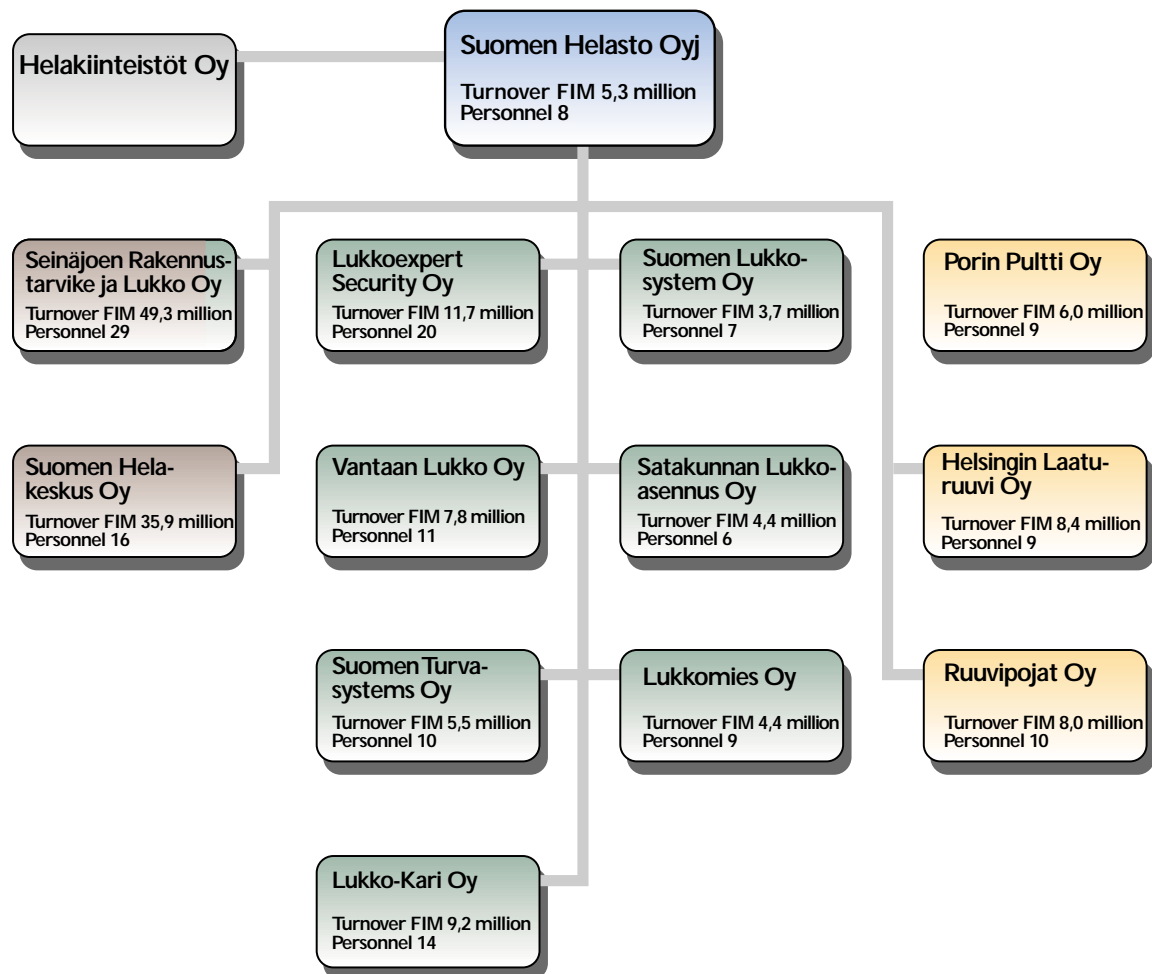

Our growth strategy is realised by:

- maintaining and developing confidential customer relations,
- investing in qualified personnel,
- maintaining and developing the reliability of products and services, and
- offering a comprehensive and up-to-date product selection.

The Group's values

The following values define The Suomen Helasto Group's operations:

- Honesty and trust
- Commitment
- Profitability
- Co-operation

The parent company manages the Group's financial and administrative functions.

The Group

Established in 1985, Suomen Helasto Oyj is the parent company of Suomen Helasto Group, with commercial subsidiaries in nine locations in Finland. Suomen Helasto Oyj's shares are quoted on the Helsinki Exchange's I list.

The parent company, located in Seinäjoki, manages central financial and administrative functions that support the Group companies' business operations, including accounting, financial services, payment transactions, information management and systems, legal affairs and communications. The parent company had a turnover of FIM 5,3 million and a staff of 8 persons.

Distribution of the group's turnover

The fittings companies in the Suomen Helasto Group engage in the wholesale of construction and furniture fittings. Both fittings companies have warehouses on their own premises in Seinäjoki. The companies supply products to customers throughout Finland as well as in Estonia and Russia. With their flexible warehouse systems, the companies are able to supply all customers with a comprehensive range of products quickly and reliably.

Managing Director Erkki Koskenkorva manages the furniture fitting operations of the Suomen Helasto Group.

The comprehensive product range of the Suomen Helakeskus comprises approximately one hundred foreign brands in addition to domestic products.

Suomen Helakeskus, Seinäjoki

Suomen Helakeskus Oy, established in 1971, specialises in the import and wholesale of furniture fittings. The company has been part of the Suomen Helasto Group since 1985. The product range covers the majority of products required by the furniture industry. The main lines comprise hinges, knobs, pull handles, screws, mechanisms, castors, doors and architraves, wood adhesives, halogen lamps and kitchen sinks. Suomen Helakeskus can supply about one hundred foreign brands, and imported fittings account for about seventy percent of its product range. It supplies most of its products to the furniture industry and to manufacturers of special furniture and kitchen fittings.

The company has a staff of 16, and its turnover was FIM 35.9 million.

Customers with immediate furniture fitting needs can be served straight from the existing inventory.

Seinäjoen Rakennustarvike ja Lukko, Seinäjoki

Seinäjoen Rakennustarvike ja Lukko Oy provides its customers with full construction fitting and locking services. Established in 1974, the company has been part of the Suomen Helasto Group since 1985.

The company's comprehensive product range comprises fittings needed by door and window manufacturers, such as door and window seals, glazing strips, and locking and security products. The inventory comprises more than 9,000 items. In addition to serving the needs of construction sites in Finland, the company also stocks items needed by customers manufacturing products for export.

The company's turnover was FIM 49.3 million, and its staff numbers 29.

Managing Director Juhani Lehtinen manages the construction fitting operations of the Suomen Helasto Group.

The extensive inventory of the Seinäjoen Rakennustarvike ja Lukko Oy serves the window and door carpentry industry with quick deliveries.

Qualified locksmiths handle the installation and servicing of locks.

The locking and security companies in the Suomen Helasto Group are engaged in the planning, installation and maintenance of locking and security systems in the fields of renovation and new construction. Operating in eight locations, they are authorised Abloy representatives, and have been granted SFS ISO-9002 certificates. In addition to conventional locking products and services, their product range includes automatic doors, gates and barriers, access control and alarm devices and burglary prevention. The companies supply their products to residential buildings, business and industrial premises, hospitals, schools, sports facilities and other public sector sites, and construction firms and other businesses, including the special group of banks and insurance companies. All the locking and security companies operate in rented premises with functionality and uniformity improved during the past financial year.

Business Area Manager Kari Salerto manages the locking and security company operations of the Suomen Helasto Group.

Use of the uniform operations model, the service package, the concentration of the business area, and the benefits of the data communications system will enable even more systematic and efficient operation in the companies in the new financial year.

Automation is a significant part of the door-system functionality.

Lukkoexpert Security, Helsinki

Lukkoexpert Security Oy is one of the leading providers of electric locking systems in the Helsinki metropolitan area and throughout the country. Established in 1975, the company became part of the Suomen Helasto Group in 1988. Major projects of the year have included the locking systems of Nokia Säterinportti and the electronic locking system of the Forum shopping centre. The company's lock service serves significant property customers in the Helsinki metropolitan area. The company had a turnover of FIM 11.7 million and a staff of 20.

Suomen Lukkosystem, Espoo

Suomen Lukkosystem Oy, located in the Espoontori shopping centre in Espoo, is a versatile provider of locking systems. The company was established in 1987 and has been part of the Suomen Helasto Group since 1988. During the past financial year, in addition to construction projects, emphasis has been placed on the operations of Suomen Lukkosystem Oy as a significant provider of lock servicing in the western part of the Helsinki metropolitan area and Espoo. The company had a turnover of FIM 3.7 million and a staff of 7.

Vantaan Lukko, Vantaa

The Vantaan Lukko Oy outlets in Myyrmäki and Tikkurila offer comprehensive locking services in the Helsinki metropolitan area. The company was established in 1987 and has been part of the Suomen Helasto Group since 1993. In addition to conventional locking systems and door-system servicing, the company delivers a comprehensive range of related equipment installations to new construction sites. The major projects of the year included locking systems for the government's health centre facilities and the Nokia Karaportti building. The company had a turnover of FIM 7.8 million and a staff of 11.

Satakunnan Lukkoasennus, Pori

Satakunnan Lukkoasennus Oy is based in Pori and provides services for customers in the Satakunta area. The company was established in 1989 as part of the Suomen Helasto Group. In addition to the most important new construction-site locking-system contract in Itäkeskus in Pori, there has also been a variety of new construction- and renovation-site projects in the area. Along with the conventional locking systems, the door, gate, fire-door and electrical locking systems are a strong field of expertise. The company had a turnover of FIM 4.4 million and a staff of 6.

Locksmiths are an integral part of efficient installation services.

Suomen Turvasystems, Oulu

Suomen Turvasystems Oy operates in the Oulu region. The company was established in 1994 as part of the Suomen Helasto Group. The major contracts in the year under review comprised the locks for the renovated Oulu barracks area K8, and significant new construction sites demanding a high level of security in the strongly growing Oulu economic zone. The company had a turnover of FIM 5.5 million and a staff of 7.

Lukkemies, Jyväskylä

Lukkemies Oy operates in a wide area surrounding Jyväskylä. Established in 1977, the company was acquired for the Suomen Helasto Group in 1996. Due to their excellent location, the company's premises in the Seppälä area efficiently and flexibly serve customers as well as the company's own installation work. During the past financial year, the company has acquired an increasingly vital position as a lock servicing company in the area, thanks to its versatile services. The most significant new construction-site locking-system contract was for the Agora building. The company had a turnover of FIM 4.4 million and a staff of 9.

Locks are still keyed alike by hand.

The shop appearance and product range was under development during the past financial year.

Lukko-Kari, Turku

Lukko-Kari Oy provides comprehensive locking services in Turku. Established in 1993, the company became part of the Suomen Helasto Group in 1998. The largest projects during the past year include renovation-site lockingsystem work in Anttila Kivikukkaro, and locking and related equipment installations in the surgical hospital. The company is involved in new construction- and renovation-site projects, as well as in serving the area as a versatile lockingsystem service provider. The company had a turnover of FIM 9.2 million and a staff of 14.

The fastening companies in the Suomen Helasto Group have outlets in Helsinki, Tampere and Pori. Their range of fastenings comprises more than 16,000 items. In addition to screws, bolts and other standard fastenings, they stock a large selection of acid-proof products, Facom manual tools and Bosch electrical tools. The companies' wholesale and retail customers include industrial companies, construction firms, electrical and HEVAC companies, local authorities and private builders. The companies also supply products to other retailers in the sector. The common product codes and centralised data management system of the fastening companies ensure swift deliveries to customers.

Quick and reliable deliveries are based on an extensive inventory and qualified personnel.

Ruuvipojat, Tampere

Ruuvipojat Oy, established in 1977, specialises in screws and fastenings. During its twenty years of operation, it has become one of the leading enterprises in its field in the Pirkanmaa region. The company operates out of rented premises in the centre of Tampere. It was purchased by the Suomen Helasto Group in 1997. The company had a turnover of FIM 8.0 million and a staff of 10.

Porin Pultti, Pori

Porin pultti Oy is a wholesale and retail company specialising in fastenings. Established in 1979, it has been part of the Suomen Helasto Group since 1990. It operates out of its own premises near the centre of Pori, and has established itself as a specialist dealer in the Satakunta region. The company had a turnover of FIM 6.0 million and a staff of 9.

Helsingin Laaturuuvi, Helsinki

Helsingin Laaturuuvi Oy, established in 1983, specialises in the whole-sale and retail of fastenings. The company was acquired for the Suomen Helasto Group in 1997. The company premises are located in the Sörnäinen district of Helsinki, and are well-placed in terms of connections and the company's clientele. The company had a turnover of FIM 8.4 million and a staff of 9.

Professional sales personnel and a comprehensive inventory are at the disposal of the pick-up and retail customers.

Group relations

The Suomen Helasto Group is engaged in the wholesale, retail and installation of locking and security systems, construction and furniture fittings, and fastenings. The Group's parent company, Suomen Helasto Oyj, located in Seinäjoki, has been listed on the Helsinki Exchanges' I list since 1992. Suomen Helasto Group has a total of twelve subsidiaries engaged in business operations. There were no changes in the Group structure during the financial year.

Group performance

The Group's turnover in the financial year ending 31 October 2000 increased 8.2%, totalling FIM 150.4 million (FIM 139.0 million in the previous financial year). Group performance improved considerably. The Group's operating profit was FIM 12.4 million (FIM 5.5 million) and accounted for 8.2% of the turnover (4.0%). Profit before taxes was FIM 10.8 million (FIM 4.1 million) and profit for the financial year FIM 7.2 million (FIM 2.7 million). Earnings per share were FIM 1.51 (FIM

0.56) and return on investment stood at 18.2% (8.7%). No extraordinary income or expense items were recorded. The Group's improved performance was influenced by the various operational mode development actions, and by the general favourable economic development in the Group's operational business areas. The development actions include the constant expansion of product selections, unifying product and stock items under the same business area, and the renovation of store facilities in different outlets.

The trend in working capital on the consolidated balance sheet met the target, and the Group's financing position remained good throughout the financial year. The solvency ratio was 39.1% (37.1%) and return on equity FIM 7.05 (FIM 7.02). The growth of the solvency ratio and return on equity was decreased by the elimination in the consolidated financial statements of the Suomen Helasto Oyj shares owned by the associated company Lock Investment Oy.

Investments

The Group's investments during the financial year totalled FIM 2.0 million (FIM 5.2 million). These consisted of the usual equipment, development and replacement investments.

Administration and staff

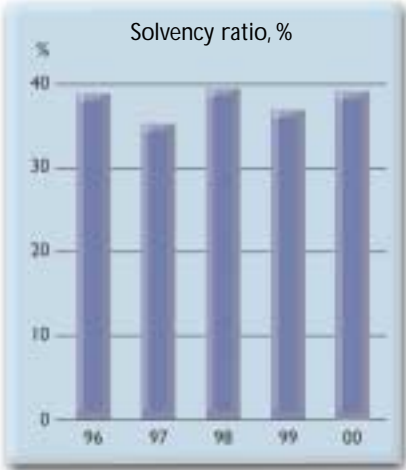

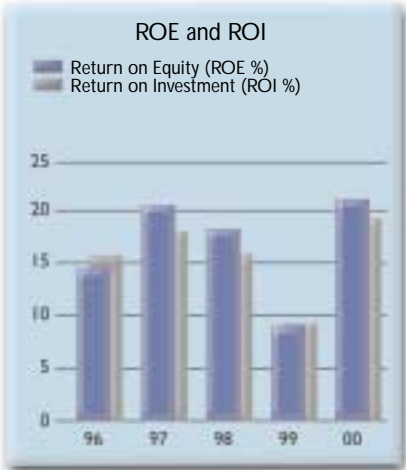

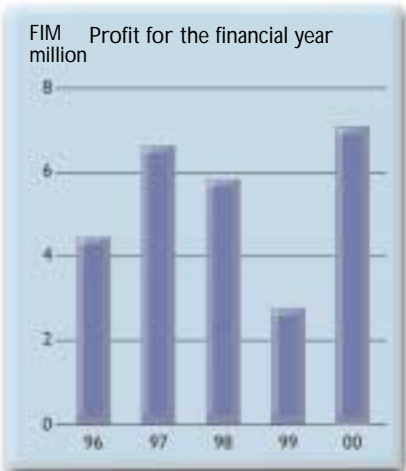

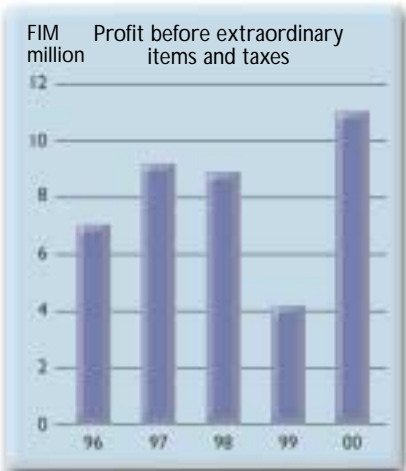

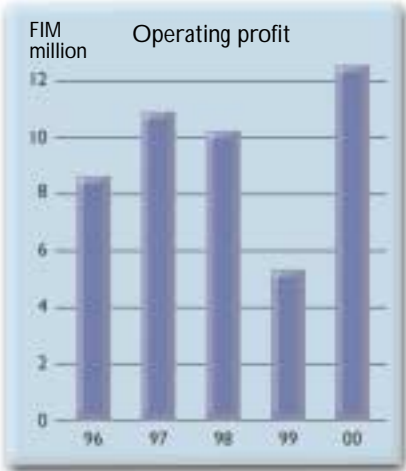

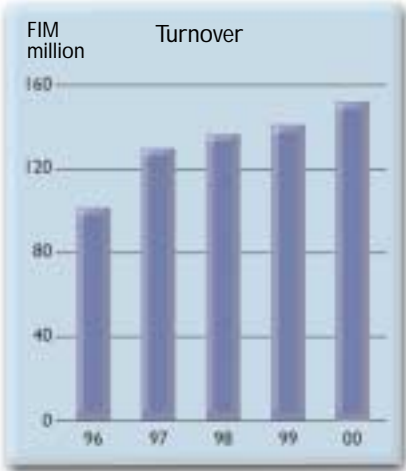

The Suomen Helasto Oyj Board of Directors comprised Erkki Koskenkorva, Matti Koskenkorva (Chairman of the Board) and Mauno Koskenkorva, who is also the Managing Director of the company. The auditors during the financial year were SVH PricewaterhouseCoopers Oy, Authorised Public Accountants, with Markku Tynjälä, Authorised Public Accountant, as responsible auditor and Jukka Ala-Mello, Authorised Public Accountant, as auditor.

During the year under review, the Group staff averaged 159 (161).

Starting from 1 March 2000, Suomen Helasto Oyj has followed the Helsinki Exchange's guidelines on insider trading. The Group will adopt the euro on 1 November 2001.

Events after the financial period and current outlook

The Suomen Helasto Group has excellent possibilities for continuing the improvement in turnover and the already-recorded profitability begun during the year under review.

1. SCOPE OF THE CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements include all Group companies and associated companies.

2. ELIMINATIONS AND PRINCIPLES OF CONSOLIDATION

The consolidated statements are drawn up using the acquisition cost method. The cost of purchasing subsidiary shares is eliminated against shareholders' equity in the subsidiaries on the date of purchase; the item includes voluntary reserves and the accumulated depreciation difference, less computed tax liability. Acquisition cost in excess of the subsidiary's shareholders' equity is allocated to non-current asset items as appropriate. In the balance sheet, the part of the purchase price not thus allocated is shown as goodwill. As of 1 November 1991, goodwill has been depreciated on a planned straight-line basis, i.e. over a period of ten to twenty years from the purchase date. All inter-company transactions and distribution of profits within the Group have been eliminated. The internal margins included in the Group's inventories and non-current assets have been deducted from the balance sheet items and from non-restricted equity. Intra-Group assets and liabilities have been eliminated. The accumulated depreciation difference is divided between deferred tax liability and shareholders' equity. Associated companies have been accounted for in the consolidated financial statements using the equity method. In the consolidated financial statements, the equivalent share of FIM 5.6 million owned by Suomen Helasto Oyj has been eliminated, out of the Group's non-restricted equity, from the ac-

quisition cost of the Suomen Helasto Oyj shares acquired by the associated company Lock Investment Oy.

3. VALUATION PRINCIPLES

Foreign currency accounts receivable or payable have been valued at the exchange rates on the date of closing the accounts. Inventories and non-current assets are valued at their direct acquisition cost.

4. DEPRECIATION PRINCIPLES

Planned straight-line depreciation on the parent company's and Group's non-current assets has been calculated on the original acquisition cost, according to expected useful economic life. The depreciation periods are:

	Years
Buildings	25-35
Machinery and equipment	5-8
Other long-term expenditure	5-10
Goodwill	10-20

In the consolidated financial statements, the depreciation percentage for goodwill on non-current assets is the same as for the non-current assets concerned.

5. PENSION EXPENSES

Statutory pensions are covered by a pension insurance company.

Proposal for the distribution of profits

The Group's distributable profit is FIM 23,701,286.38.

The parent company's distributable profits are:

Retained earnings from previous financial years	FIM 24 321 562,75
Profit for the financial year	<u>FIM 7 987 856,82</u>
Total	FIM 32 309 419,57

The Board of Directors proposes that

- a dividend of FIM 0.80 per share be paid on share capital (4,754,500 shares), totalling FIM 3,803,600.00.
- the balance of the profit for the financial year be carried over.

Seinäjoki, 9 January 2001

Matti Koskenkorva
Chairman

Erkki Koskenkorva

Mauno Koskenkorva
Managing Director

AUDITOR'S REPORT

To the shareholders of Suomen Helasto Oyj

We have audited Suomen Helasto Oyj's accounts, financial statements and corporate governance for the financial year 11 November 1999–31 October 2000. The financial statements prepared by the Board of Directors and the Managing Director include the Board of Directors' report and the income statements, balance sheets and notes to the financial statements of the Group and the Parent Company. Based on our audit, we express the following opinion on these financial statements and on corporate governance.

We have performed our audit in accordance with the Finnish Standards on Auditing. Thus the accounts, the accounting principles and the contents of the financial statements have been examined to a sufficient degree to verify that the financial statements are free from material misstatement. The audit of corporate governance verified that the members of the Board of Directors and the Managing Director have complied with the provisions of the Finnish Companies Act.

In our opinion, the financial statements have been prepared in accordance with the Accounting Act and other rules and regulations relevant to preparation of financial statements. They give a true and fair view of the Group's and Parent Company's result and financial position. The Parent Company and consolidated financial statements can be approved and the members of the Parent Company Board of Directors and the Managing Director discharged from liability for the financial year audited by us. The proposal of the Board of Directors concerning the disposal of the year's profit complies with the Companies' Act.
