SATAMA INTERACTIVE OYJ ANNUAL REPORT

2000

SATAMA INTERACTIVE OYJ ANNUAL REPORT 2000

CONTENTS

The present Satama Interactive Oyj was established on 1 December, 1999 when Interaktiivinen Satama Oy was devided into two companies: a new Interaktiivinen Satama Oy (whose name was later changed to Satama Interactive Plc) and WOW-verkkobrandit Oy. Because of this division, the audited financial statements are not comparable, and consequently a section has been added at the end of this report called 'Unaudited pro forma data'. The pro forma figures have been calculated solely for comparison purposes. It should also be noted that they are unaudited and do not form part of the company's official financial statements for 2000. The financial statements are in Finnish markkas, but the pro forma figures are given in euros.

This annual report comprises two parts, the official audited financial statements (pages 1-27) and the unaudited pro forma figures (pages i-ix).

CEO'S REVIEW

2000 OUR THIRD CONSECUTIVE GROWTH YEAR

Year 2000 was Satama Interactive Oyj's first full year of operation following the demerger of Interaktiivinen Satama Oy on 30 November 1999. The operations that passed to what is now Satama Interactive in the demerger started up over three years ago, in October 1997. In 2000, the main objective was to sustain the rapid growth achieved and strengthen our standing on Continental and US markets important to us.

To ensure the company a firm foundation for future growth, Satama was listed on Helsinki Exchanges' NM List on March 17, 2000.

Revenues increased 115%, to EUR 30.1 million. Organic growth was 83%. In addition, we completed an acquisition in the Netherlands and a second in Germany. Through the increase in share capital carried out in December, Satama acquired a 25% holding in the Hungarian software company Tigrasoft.

The contribution made by Satama's foreign subsidiaries to its revenues has risen consistently, and as much as 37% of the 2000 total came from these companies. In the second half, the figure rose to 43%. The business operations of Satama Finland within the parent company developed well in terms of both growth and profitability. Its operations are profitable and on a comparable scale to those of other major Finnish consultancies. Most of the revenues generated in Finland comprise services sold to Satama's global customers Nokia and Sonera.

DRAMATIC CHANGES IN THE MARKET

The Internet market changed during 2000. There was distinct overheating early in the year, but from the second quarter onwards the market settled down steadily. The most conspicuous signs of this process were the numerous bankruptcies and close-downs of dot.com companies, ending with widely publicized mass lay-offs at IT companies and Internet consultancies towards year-end.

In my own view, the market has been moving in a more mature direction overall. Demand from customer companies for the services of Internet consultants is still great, though now less frenzied and more carefully considered. The general estimate of the likely growth in market demand up to 2003 is 20-40%.

ADJUSTMENTS TO OUR STRATEGY

Satama has made some adjustments to its strategy. The most important is making profitability rather than growth our main target. In Satama Finland's case, this means working hard on profitability, and in that of the foreign subsidiaries, achieving a break-even level.

We will be focusing our know-how increasingly on existing strengths. This means concentrating on high-quality consultation and design services related to our customers' e-business strategy, concept design, usability and technology. We favor joint projects with partners, typically on large-scale system integration assignments.

PERSONNEL

Satama's strength is its skilled and motivated personnel. We invest systematically in staff development. The most important training projects in 2000 included the Satama e-Business University, which moved into its 'sophomore' year. Other important projects included leadership training for management and an extensive mobile training program.

We invest in staff well-being in many ways. Regular staff briefings are part of each Satama subsidiary's regular routine. We also made some major improvements in working conditions at several units. In Helsinki, a new 1800 m² extension opened in November. The Amsterdam, Dallas and Stockholm offices all moved into new and more functional premises.

CUSTOMERS

Satama continued to follow up its successful 'key customer' strategy in 2000. Its ten biggest customers in fact accounted for 72% of revenues. The most important sector is telecommunications, especially media and mobile interests. All our most important customers increased their investment in Satama services.

To boost the quality of its customer work and project deliveries, Satama made a major investment in developing the Satama Unified Process (SUP), based on the Rational Unified Process. SUP gives Satama a systematic way of making progress and reacting to change. In future, it will also permit better management of multi-vendor projects and assignments across national boundaries.

R&D is an important part of our everyday work. The 'Innovation Space' concept launched by Satama at year-end has already brought excellent feedback from the first customers.

VALUES

Satama's values are: openness, curiosity, respect and focus. It embodies and promotes these values every working day.

I would like to take this opportunity to thank our personnel for their excellent work with customers, and express my appreciation to all our partners. This gives us a good basis for future efforts.

REPORT OF THE BOARD OF DIRECTORS FOR THE PERIOD 1 JANUARY 2000 TO 31 DECEMBER 2000

GENERAL

The period from 1 January 2000 to 31 December 2000 was the first complete year of operations for Satama Interactive Oyj. Satama Interactive Oyj was established on 30 November 1999 when Interaktiivinen Satama Oy was divided into the present Satama Interactive Oyj and WOW Verkkobrandit Oy. In 1999, the fiscal year of the company was therefore one month, beginning on 1 December 1999 and ending on 31 December 1999. For that reason, the 1999 comparative figures presented in the Report of the Board of Directors contain only one month.

In addition to the official financial statements, the company has also calculated various comparative and supplementary data, in which unaudited pro forma figures were used as the comparative figures for 1997-1999. These data were neither audited nor included in the official financial statements.

In addition to the parent company, Satama Interactive Oyj, the consolidated financial statements include the following wholly owned subsidiaries: Interweb Oy, Mediayhtiö Sansibar Oy, Satama Finland Oy, Seiren Solutions Oy, Satama Amsterdam B.V., Satama Deutschland GmbH, tro new media GmbH, Satama Sverige AB, Satama UK Ltd and Satama USA Inc. The consolidated financial statements combine all the subsidiaries and also the associated companies First Hop Oy (a 31.9% holding) and Tigrasoft Kft (a 25% holding).

The parent company of Satama Interactive Oyj is Talentum Oyj, which had a 62.2% holding in the company at the end of the fiscal year.

REVENUES AND FINANCIAL PERFORMANCE

Consolidated revenues for the period 1 January 2000 to 31 December 2000 totaled FIM 179,071,576.16 (FIM 10,310,093.54). The consolidated loss was FIM 137,287,088.33 (- FIM 8,347,964.37). The parent company revenues totaled FIM 108,749,848.86 (FIM 6,089,253.51) and the loss FIM 139,923,194.60 (FIM – 2,264,523.22).

The consolidated financial performance in 2000 was burdened by the foreign subsidiaries, particularly Satama USA Inc. and Satama UK Ltd, whose profitability did not meet expectations during the fiscal year. Hence, the Satama Board of Directors decided on 14 February 2001 that Satama UK Ltd would be closed down during the spring and that Satama USA would be restructured by reducing the number of employees to approximately half of the present figure. To cover the costs of restructuring, a provision of FIM 11,385,702.00 was made in the consolidated financial statements.

Due to the losses sustained to date from the operations of Satama USA and to the continuing risk posed by operations, it was decided to write off the goodwill resulting from sale of the business of the D-Animation company. The additional nonrecurring goodwill depreciation FIM 22,292,253.02 in included in extraordinary items.

The financial statements of the parent company include listing costs of FIM 9,261,079.40 entered as nonrecurring items under financial expenses, a write-down on the shares of 24/7 Media Inc obtained as part of the price of the Netbooking Oy shares sold with a net effect of FIM 5,066,425.16 and a write-down of FIM 120,914,692.92 made on subsidiary shares and receivables. Nonrecurring expenses of FIM 1,154,519.40 incurred from the trademark dispute between the company and Atama AG were under other operating expenses in the parent company. A deferred tax receivable of FIM 3,145,718.91 made in 1998 was reversed in the parent company financial statements.

BOARD OF DIRECTORS AND AUDITORS

During the past fiscal year, the Board of Directors of Satama Interactive Oyj was composed of the chairman, Harri Roschier, and members Samu Mielonen, Ami Hasan, Heikki Westerlund and Jukka Ant-Wuorinen (16 February 2000 – 31 December 2000) and Risto Ojantakanen and Sakari Salminen from the beginning of the fiscal year until the Annual Meeting on 16 February 2000. Authorized public accountants SVH Pricewaterhouse Coopers acted as auditors. Heikki Rotko was CEO of the company.

RESEARCH AND DEVELOPMENT

The Group does research and development related to its service production within the framework of normal operations. Development of wireless Internet services is a special priority. The total investment in product development amounted to approximately 10% of the working time of production personnel.

EVENTS DURING THE FISCAL YEAR

Satama Interactive Oyj arranged a combined offering and share issue from 29 February 2000 to 2 March 2000. The company's stock was included on the HEX Pre list on 15 March 2000 and on the NM list on 17 March 2000.

The parent company Talentum Oyj subscribed for 1,550,000 shares in an institutional issue held from 29 February to 1 March 2000. Payment of the subscription price was achieved against Talentum Oyj's receivables from the company, including a total of FIM 8,859,130.25 capital loans granted to the company by Talentum Oyj.

Three new subsidiaries and one associated company entered the Group during the fiscal year. In February, the parent company acquired 67% of General Design B.V. The name of the company was later changed to Satama Amsterdam B.V. In September, the parent company acquired the remaining 33% of the company. In May, the parent company acquired 100% of the German company tro new media GmbH. In September, the parent company founded Satama Finland Oy, which was dormant during the fiscal year.

Tigrasoft Kft from Hungary became an associated company when the parent company subscribed 25% of its shares in a targeted issue held in December.

During the fiscal year, the parent company founded Singapore Pte Ltd in Singapore. The company gained the legal status of subsidiary only during fiscal year 2001.

The name of Satama Deutschland GmbH was changed on 12 April 2000 to OWD GmbH. The reason for the change was the uncertainty that had arisen over the potential confusioning of the corporate name Satama with the corporate name and trademark Atama. The name was changed back to Satama Deutschland GmbH when agreement was reached with Atama. According to the agreement reached with Atama AG, the parent company paid Atama AG a nonrecurring settlement of EUR 150,000 and also agreed to pay 0.25 –1% of the Group's revenues in Germany during the next ten years up to a maximum of EUR 885,000.

In May, the police questioned three Satama employees and one former employee with regard to alleged copyright violations. As a result, Timo Hentunen, then director of operations in Finland, gave notice on 14 May, 2000. Risto Koivula was appointed to replace him as of 15 May, 2000.

In December, the media reported that at the request of the Finnish Financial Supervision Authority, the police were investigating Satama's investor communication and alleged misuse of insider information. Neither the chairman of the company Board of Directors, the CEO, nor any member of the management team at that time have sold any of the Satama Interactive Oyj shares purchased by them when the company was listed or held by them previously. With respect to investor communication, Satama has provided Financial Supervision with an account of events succeeding the profit warning in the spring. According to the company's view, investor communication had been handled with due diligence. Financial Supervision had not released any more information on the investigation by the time the accounts were closed.

AUTHORIZATION FROM THE BOARD OF DIRECTORS TO INCREASE CAPITAL STOCK

On the basis of the authorization granted by the Annual Meeting on 16 February 2000, the Board of Directors has decided on the following targeted share issues and waived the preemptive right of shareholders.

On 28 February 2000, the Board of Directors decided on a targeted issue for a maximum of 4,500,000 shares. Expansion of the ownership base was the reason for waiving the preemptive right. This issue was part of the combined offering and share issue preceding listing of the parent company in which shares were offered to foreign and domestic institutional investors, to Talentum Oyj, to the public, and to employees of the Talentum group. The subscription price of the share was EUR 13.00 and EUR 11.70 in the personnel issue.

On 29 June 2000, the Board of Directors decided to target an issue of 358,313 shares to the shareholders of tro new media GmbH. Subscription was based on a capital contribution against the share acquired in tro new media GmbH. After the increase in capital stock, the combined holding of the former owners of tro new media GmbH and the voting rights in Satama Interactive amounted to approximately 1%.

On 25 September 2000, the Board of Directors decided to target a share issue of 655,460 shares to Satama General Design Holding B.V. Subscription was based on a capital contribution against the 33% holding acquired in Satama Amsterdam B.V. After the increase in capital stock, the combined holding and voting rights of General Design Holding B.V. and its nominees in Satama Interactive amounted to approximately 1.8%.

OPTION PROGRAM

On 16 February 2000, the Annual Meeting decided to issue options to the wholly owned subsidiary Interweb Oy for eventual transfer to the employees of Satama Interactive and its subsidiaries. The preemptive rights of shareholders were waived because the options are intended as part of an employee commitment and incentive scheme. The 1,600,000 options entitle their holders to subscribe for a total of 1,600,000 shares at a subscription price of EUR 5.26 per share. The subscription period for A option shares will begin on 15 December 2001 and end on 31 January 2004 and the subscription period for B option shares will begin on 15 December 2002 and end on 31 January 2004.

On the basis of the option program approved by an extraordinary meeting of shareholders on 20 December 1999, shares were subscribed on 14 February 2000 as follows: Capman funds subscribed for 3,173,280 new shares with the options and company personnel subscribed for 230,500 new shares on the basis of the A option shares of the 1999 warrant bond and for 230,500 new shares on the basis of the option program set up by an extraordinary meeting of shareholders on 20 December 1999. On the basis of the 1999 A options, 32,320 new shares were subscribed between 15 and 18 December 2000.

At the end of the fiscal year, the company's capital stock comprised 37,249,393 shares and was worth EUR 783,112.28.

SIGNIFICANT EVENTS AFTER THE END OF THE FISCAL YEAR

To simplify the Group structure, an extraordinary meeting of parent company shareholders decided on 20 December 2000 to transfer the consulting business of the parent company to the established subsidiary Satama Finland Oy under the terms of section 52 d of the Business Taxation Act. The business was transferred on 1 January 2001.

During the fiscal year 2000, the Group's financial results were eroded by the foreign subsidiaries, especially Satama UK Ltd and Satama USA, Inc, whose performance did not meet expectations. Consequently, the Board of Directors decided on 14 February 2001 that Satama UK Ltd would be shut down during spring 2001 and Satama USA would be restructured by reducing personnel to about half of the present figure.

OUTLOOK FOR THE FUTURE

Demand in the Group's sector, digital design and consulting, are expected to grow in the future as well.

The financial standing of the Group is strong and the company will not need additional financing during the current year to carry out its defined strategy. In 2001, Satama will focus on improving profitability, although a loss will again be shown. There will be a profit in 2002. The decisions concerning the USA and the UK will have a positive impact on profitability, but will reduce revenue in the short term. As a result of the measures decided on, first-quarter revenue will be on the level of the final quarter of 2000.

PROPOSAL BY THE BOARD OF DIRECTORS FOR COVERING THE LOSS

The Board of Directors proposes that no dividend be paid for the fiscal year. The Board will propose to the Annual Meeting that the loss from previous financial years of FIM 4,260,614.72 and the loss for the fiscal year of FIM 139,923,194.60 will be covered from the shareholder's equity fund (FIM 10,379,326.00) and the share premium fund (FIM 133,804.483.32).

PRINCIPLES USED IN PREPARING THE FINANCIAL STATEMENTS

EXTENT OF THE CONSOLIDATED FINANCIAL STATEMENTS AND ACCOUNTING PRINCIPLES

The company is part of the Talentum Group, whose parent company is Talentum Oyj, domiciled in Helsinki. Copies of Talentum's financial statements are available at the company's headquarters, Malminkatu 30, 00100 Helsinki.

In addition to the parent company, the consolidated financial statements include the wholly owned subsidiaries Interweb Oy, Mediayhtiö Sansibar Oy (name changed to Satama Tampere Oy and registered in January 2001), Seiren Solutions Oy, Satama Finland Oy, Satama Deutschland GmbH, Satama UK Ltd, Satama Sverige Ab (the name on the closing of the accounts on 31 December, 1999 was C/o Network Ab), Satama USA Inc, and Satama Amsterdam B.V. (former name General Design B.V.) and tro new media GmbH, which were acquired during the fiscal year. All Group and associated companies have been consolidated. First Hop Oy and Tigrasoft Kft are included as associated companies in the consolidated financial statements. In the case of the subsidiaries acquired during the year under review, the financial results of Satama Amsterdam B.V. have been included for 11 months of the fiscal year and those of tro new media GmbH for 7 months. For the fiscal year 1 December – 31 December, 1999 the consolidated figures include financial results of the subsidiaries for December 1999. The remainder of the financial results of subsidiaries for the period in which they were in the Group is included under consolidated shareholders' equity in the item losses carried forward.

The subsidiaries were consolidated using the acquisition cost method. The difference between the acquisition cost of the subsidiaries and shareholders' equity corresponding to the holding acquired was presented as goodwill on consolidation. Goodwill on consolidation is depreciated in ten years. The associated company was consolidated using the equity method, that is, one-line consolidation. The acquisition cost of shares in the Group's associated company was adjusted directly with the Group's share of the associated company's financial results for the fiscal year.

Intragroup transactions, internal dividend payment and internal receivables and payables were eliminated.

The income statements and balance sheets for the foreign group companies have been translated into Finnish markka at the rate of exchange on the day the accounts were closed. Differences arising from translation of restricted and unrestricted shareholders' equity were presented as separate items in consolidated shareholders' equity.

VALUATION PRINCIPLES:

Valuation of fixed assets

Fixed asset items were entered in the balance sheet on the basis of direct acquisition costs less planned depreciation. The straight-line depreciation method was used on the basis of economic life.

Planned depreciation periods are the following:

| der | rec | iation | ner | hoi |
|-----|--------|--------|-----|-----|
| uch | ,,,,,, | allon | PCI | ou |

Intangible assets

• Goodwill on consolidation 10 years

Other long-term expenditure

Software licenses 2-3 years
Renovation of premises 5-10 years
Goodwill 10 years

Tangible assets

Machinery and equipment

Computer hardware
 Office furnishings
 Motor vehicles
 2 years
 5 years

The final amount of the goodwill from the acquisition of the US subsidiary was written of from the consolidated balance sheet as depreciation in excess of plan. Depreciation in excess of plan was entered under extraordinary items in the consolidated income statement.

Write-downs on subsidiary shares and long-term loan receivables equivalent to the losses of the subsidiaries incurred since consolidation were entered under financial expenses.

Valuation of liquid assets

Securities under liquid assets were valuated at acquisition cost.

Expenditure on research and product development and long-term expenditure

Expenditure on research and product development was entered as an annual expense during the year it was incurred.

Pensions

Pension expenses were entered according to the local legislation of each country. The pension security of personnel of the parent company and the other Finnish subsidiaries was provided by external pension insurance companies.

Deferred taxes

The deferred tax liability and receivable was calculated for the temporary differences between taxation and the financial statements using the tax rate for the following years. The entire deferred tax liability and the probable deferred tax receivable are included in the balance sheet.

COMPARABILITY OF THE FINANCIAL STATEMENTS

The financial results for the fiscal year 2000 and 1999 are not comparable, since the year was the first for the parent company and was one-month long 1 December – 31 December, 1999. With respect to the parent company, the balance sheet for 1999 was derived from the share of Interaktiivinen Satama Oy (the former company, trade reg. no. 348.456), specified by the plan for dividing the company, in the balance sheet at November 30, 1999. The 1999 balance sheet opened for the Group consolidates the balance sheets at November 30, 1999 for the interim financial statements of the subsidiaries transferred in the division and the shares of the associated company First Hop Oy, to the extent that they are consolidated in the consolidated balance sheet in the final rendering of accounts for Interaktiivinen Satama Oy.

Other contingent liabilities

The parent Company has agreed to arrange for a targeted new share issue during 2001 to D Animation Inc. (domiciled in Dallas, USA) relating to the acquisition of the US subsidiary, Satama USA Inc. The preemptive right of shareholders will be waived for the share issue. The issues will be for a maximum 400,000 US dollars (USD 400,000). The subscription price calculated according to the number of shares when the deal was closed was 20.153 US dollars (USD 20.153), that is a maximum of 19,848 shares. After the changes in the number of shares, this number will be a maximum of 158,785 shares.

NOTES ON THE KEY FIGURES AND COMPARABLE FIGURES

The present Satama Interactive Oyj was established on 1 December 2000, on the basis of a division when Interaktiivinen Satama Oy was split into two companies, the new Interaktiivinen Satama Oy (the name was later changed to Satama Interactive Oyj) and WOW-verkkobrandit Oy. The 1999 fiscal year was one month long, from 1 December to 31 December 1999. No comparable official figures are available for previous years.

The key figures depicting economic trends and those for shares were calculated in accordance wiith the decision of the Finnish Ministry of Finance (360/1999) and the guidelines of the State Accountancy Committee.

Shareholder agreements

The company is not aware of any mutual agreements between any shareholders relating to the company's operations or ownership.

Management holdings

The members of the Board of Directors and the CEO of Satama Interactive Oyj owned a total of 550,500 shares on 31 December 2000. These represent a total of 1.48% of the company's shares and votes.

CAPITAL STOCK AND OPTIONS

At the end of the fiscal year, Satama Interactive Oyj had 37,249,393 shares quoted on the NM list of the Helsinki Exchanges. Capital stock amounted to EUR 783,112.28 and the book counter-value of a share was EUR 0.021023491.

The 8-for-1 stock split approved by an extraordinary meeting of company shareholders on 20 December 1999 and the share issues related to the company acquisitions carried out in 1999 were entered in the Trade Register on 20 January 2000. After the increase, the company's capital stock comprised 28,299,520 shares and EUR 594,954.70.

The Annual Meeting on 16 February 2000 authorized the Board of Directors of the company to decide on a new issue and to issue options and a convertible bond in one or more installments through a new issue. The new issue, options or convertible bonds allowed for subscription of a maximum of 5,659,904 new shares with a book counter-value of EUR 0.021023491. The capital stock can be raised by a maximum of EUR 118,990.94 on the basis of the authorization.

The Annual Meeting made 1,600,000 options available to the company's subsidiary Interweb Oy, thereby waiving the preemptive right of shareholders. The options permit subscription for a maximum of 1,600,000 new shares with a book counter-value of some EUR 0.02 each. Each option allows subscription for one share at a price of EUR 5.26 per share. The subscription periods for options are from 15 December 2001 to 31 January 2004 (A options) and from 15 December 2002 to 31 December 2004 (B options). The capital stock can be increased by a maximum of EUR 33,637.59 with the options.

On the basis of the option programs approved by the extraordinary meeting of shareholders on 20 December 1999, shares were subscribed as follows on 14 February 2000: Capman funds subscribed for 3,173,280 new shares on the basis of the options and company personnel subscribed for 230,500 new shares on the basis of the A options of the 1999 bond with warrants and option program decided by the extraordinary meeting of shareholders on 20 December 1999. The increase in capital stock was registered on 25 February 2000 and comprised a total of 3,403,780 shares and amounted to EUR 71,559.34. After the increase, the company's capital stock comprised 31,703,300 shares and EUR 666,514.04.

On 7 February 2000, the Board of Directors of Satama Interactive Oy decided to apply to list the company's shares on the NM list of the Helsinki Exchanges. The company's shares were included in the Prelist on 15 March 2000 and on the NM list on 17 March 2000. The Board of Directors of the company then decided on 28 February 2000 to effect a targeted issue for a maximum of 4,500,000 shares on the basis of authorization obtained from the Annual Meeting. A total of 8.300.000 shares were offered in the combined offering and issue. The share price was EUR 13.0. The shares were offered to foreign and domestic institutional investors, to the public, and to company personnel. Approximately 250 major international investors and more than 200 Finnish institutional investors took part in the institutional offerings and issues and some 12,000 subscription commitments were approved in the public offering and issue. 345 employees from the Talentum Group took part in the personnel issues, which corresponds to more than 60% of those entitled to subscribe. In the institutional offerings and issues some 61% of the shares were allocated to international investors and 39% to Finnish. In the public offering and issue 50 shares were allocated to those subscribing for 400-700 shares and 100 shares to those subscribing for 800-1000. 305,300 shares were allocated to the personnel issue at a price of EUR 11.7. The global coordinator exercised seller rights to offer an additional 1,000,000 shares at the subscription price for institutional investors within 30 days of the guoting of the share. Hence, the total number of shares in the combined offering and issue amounted to 9,300,000, of which the parent company Talentum Oyj subscribed for 1,550,000 shares at the same price as the other new owners, in accordance with plans and the offering circular in order to maintain its clear majority holding.

The 935,300 new shares subscribed in the public and personnel issue were registered on 10 March 2000. After the increase the company's capital stock comprised 32,638,600 shares and EUR 686,177.31.

The 3,564,700 new shares in the institutional issue were registered on 15 March 2000. After the increase, the company's capital stock comprised 36,203,300 shares and EUR 761,119.75.

In March, Finnventure Rahasto III Ky and Finnventure Rahasto III G Ky announced in accordance with chapter 2, paragraph 9 of the Securities Markets Act that on 15 March, 2000 their combined holding in the shares of Satama Interactive Oyj had dropped below 5%. The funds' holding was 3.3% (1,200,000) shares.

On 29 June 2000, the company's Board of Directors decided on the basis of the authorization obtained from the Annual Meeting to effect a targeted issue to the shareholders of tro new media GmbH. The increase in share capital of 358,313 shares and EUR 7,532.99 was registered on 7 July 2000. After the increase, the company's capital stock comprised 36,561,613 shares and EUR 768,652.74.

On 25 September 2000, the company Board of Directors decided on the basis of its authorization from the annual meeting to raise the capital stock with a targeted issue to minority owners of Satama Amsterdam B.V. The increase in capital stock of 655,460 shares and EUR 13,780.06 was registered on 4 October 2000. After the increase, the company's capital stock comprised 37,217,073 shares and EUR 782,432.80.

On the basis of the 1999 A options, 32,320 new shares were subscribed between 15 and 18 December 2000. The increase in capital stock of 32,320 shares and EUR 679,48 was registered in the Trade Register on 21 December 2000. After the increase, the company's capital stock comprised 37,249,393 shares and amounted to EUR 783,112.28.

II UNAUDITED PRO FORMA INFORMATION

UNAUDITED PRO FORMA INFORMATION

COMMENTS ON PRO FORMA FIGURES

The present Satama Interactive Oyj was established on 1 December 1999 when Interaktiivinen Satama Oy was divided into two companies, the new Interaktiivinen Satama Oy (later Satama Interactive Oyj) and WOW-verkkobrandit Oy. Official comparable figures are therefore not available. To be able to compare the development of group's consulting business year by year the figures for years 1997 – 1999 herein are calculated pro forma figures. The pro forma figures are calculated only for comparison reasons. It has to be noted also that these pro forma figures are unaudited and not included in company's official financial statements for reporting period 2000.

The comparable figures herein and in the offering circular are unaudited pro forma figures calculated by separating the operations transferred to WOW-verkkobrandit Oy from the official figures of the parent company. Also the separate quarterly figures for reporting period 2000 are unaudited.

The figures per share are calculated from the numbers of shares used in the offering circular. The figure for earnings per share for the reporting period is based on the average number of shares in the reporting period and the figure for equity per share is based on the number of registered shares on 31 December 2000.

REVENUE AND PROFIT DEVELOPMENT OF THE REPORTING PERIOD COMPARED WITH THE PROFORMA FIGURES OF YEAR 1999

Satama's revenues rose by 114.6% compared with the pro forma figure for 1999 and amounted to EUR 30.1 million (EUR 14.0 million). Operations abroad accounted for 37% of total revenues.

Satama's operating loss was EUR 17.0 million (EUR 4.7 million) and the loss before extraordinary items and taxes EUR 18.7 million (EUR 4.8 million). Earnings per share were EUR –0.54 (EUR –0.15). Net financial items showed a loss of EUR 1.8 million (EUR –113,000) due primarily to the non-recurring costs of EUR 1.6 million incurred in listing and a writedown of EUR 0.9 million on shares of 24/7 Media Inc. obtained as part of the purchase price in conjunction with the divestiture of Netbooking Oy.

Satama's performance was eroded in 2000 by the foreign units, particularly those in the USA and the UK, whose profitability did not meet expectations during the fiscal year. As a result, the Satama Board of Directors decided on 14 February 2001 that Satama will shut down operations at Satama UK Ltd during the spring. Operations in the USA will be restructured by reducing personnel by approximately one half from the present number.

A provision of EUR 1.9 million was made in the financial statements to cover the costs of these restructuring actions. Due to the losses incurred to date in operations in the USA and the risk still involved in the operations, it was decided to write off the entire goodwill obtained from acquisition of the D Animation company. This non-recurring additional depreciation of EUR 3.7 million was entered under extraordinary items. During the final quarter, operating profit was also eroded by a non-recurring expense item of EUR 0.2 million incurred from a trademark dispute (Satama-Atama) in Germany. A deferred tax asset of EUR 0.5 million entered in the 1998 financial statements was written off in the year 2000 financial statements.

In addition to Finland, Satama had operations during 2000 in Sweden, Germany, the United Kingdom, the USA and the Netherlands. An office with a staff of one was also opened in Singapore, but no business has been conducted there as yet.

The group employed an average of 414 people during the report period (173 people). Growth from the previous year was 139%. At the end of the report period, 42% of the 454 employees were employed by the international units.

Relative profitability from operations on the basis of comparable figures (before non-recurring items) improved quarter by quarter during year 2000. Hence, the operating loss calculated in this manner during the first quarter was 75.9% in relation to revenues, during the second quarter 58.1%, during the third quarter 41.6% and during the fourth quarter 31.9%.

The itemized figures appear in the following table:

| | Q1 | Q2 | Q3 | Q4 | 2000 |

THE GROUP BY COUNTRY

FINLAND (Satama Interactive Oyj)

Revenues of the parent company Satama Interactive Oyj totaled EUR 18.3 million and the operating loss EUR 1.0 million. The parent company had 226 people on the payroll at the end of the report period; 176 of them became employees of the new company Satama Finland Oy as of 1 January, 2001.

The parent company Satama Interactive Oyj comprised the service business (Satama Finland), corporate management and the internationalization unit until the end of the report period. On 1 January 2001, Satama Finland's operations were incorporated into a separate company, Satama Finland Oy. Corporate management and the internal services, such as finance and administration and the business development unit, remained in the parent company. Risto Koivula served as the Country Manager of Satama Finland from 15 May 2000 to 1 January 2001, when he became CEO of the new company, Satama Finland Oy.

Apart from the Helsinki operations, Satama Finland includes an R&D unit in Oulu. Satama Finland's clients include Nokia, Sonera zed, WOW-Verkkobrandit (a subsidiary of Talentum), S-Group, Virtuaalinen Suomi, PSW-Kiinteistömaailma, RIOT-E and Yliopiston Apteekki. The operations of Satama Finland within the parent company were profitable.

Satama Finland was a success in the Vuoden Huiput competition. The competition is an event arranged by Grafia Ry, the national organization for graphic design, where awards are made annually for the best graphic design, advertising and new media. The Nokia Snowboard pages designed and implemented by Satama for Nokia won the gold prize in the competition and the pages designed by Satama for Kiasma shared the silver prize.

The Web pages designed and implemented for the Finnish Red Cross (www.redcross.fi) by Satama shared first prize in the Best Design category in the M&M Grand Prix, Finland's major new media competition, arranged by the journal Markkinointi ja Mainonta on 19 October 2000.

SANSIBAR (Mediayhtiö Sansibar Oy)

Mediayhtiö Sansibar Oy's revenues totaled EUR 1.1 million and the operating loss EUR 0.6 million. The agency had 36 persons on the payroll at the end of the period. Mediayhtiö Sansibar Oy's name was changed to Satama Tampere Oy on 9 January 2001.

Sansibar was integrated with Satama Finland during the report period. Most of the revenues were generated from operations supporting the strategy adopted by Satama Finland. Sansibar's competence was also put to use in broadband and DigiTV projects that so far have generated little revenue, but which will make an important contribution to the future development of Satama.

SWEDEN (Satama Sverige AB)

Satama Sverige's revenues totaled EUR 1.3 million and the operating loss was EUR 0.8 million. The Swedish office had a payroll of 21 people at the end of the report period.

Satama Sverige excels in strong visual and concept design expertise and it succeeded well in Månadens Webb competition arranged by the Swedish marketing journal Resumé. International projects carried out by other Satama units have also benefited from the solid design expertise of Satama Sverige.

Satama Sverige continues its successful relationships with old clients such as NK, J. Lindeberg and Pressens Bild. Among new clients gained by the company are Votia Empowerment, Netgame Factory, Stockholmsmässan and Hotel Seger (Kanal 5). A system was developed for Votia Empowerment with which the Municipality of Kalix in the northern Sweden became the first local government in the world to carry out a large-scale e-democracy experiment. The experiment won wide publicity both in Sweden and in the international media.

GERMANY (Satama Deutschland GmbH and tro new media GmbH)

Satama Deutschland is based on two acquisitions. In summer 1999, the business operations of a company called OWD Online Werkstatt Düsseldorf GmbH were acquired and in May 2000 a company called tro new media GmbH. The companies were legally separate, but operationally one during the year 2000, and they were later on merged at the beginning of 2001.

Consolidated revenues of the companies totaled EUR 3.7 million and the operating loss EUR 1.4 million. Satama Deutschland's revenues grew rapidly during the second half of the year, thanks to the acquisition of tro new media. Profitability also improved substantially toward the end of the year. The German companies had a payroll of 63 persons at the end of the report period.

Clients of the German office include BMG Ariola, ENX, iPublish, KarstadtSport, Keramag-Sanitec Group, Müller International, Nokia, RTL New Media, Siemens and Viag Interkom. Satama Deutschland has signed partnership agreements with Aeonware, Gauss Interprise, InfoOffice, InfoPark and Sonera Deutschland.

NETHERLANDS (Satama Amsterdam B.V.)

Satama Amsterdam B.V.'s revenues since it became part of the Group (11 months) totaled EUR 2.7 million and the operating loss EUR 1.7 million. Satama Amsterdam expanded to 50 employees by the end of the year.

Satama Amsterdam's key clients include Vereniging Eigen Huis, KPN/Planet Internet, Audi, Sociale Verzekerings Bank, Hogeschool Holland and Sonera zed.

GREAT BRITAIN (Satama UK Ltd)

Satama UK Ltd's revenues totaled EUR 1.6 million and the operating loss was EUR 2.9 million including EUR 0.9 million provision for reorganisation. Satama UK is the only Satama office not based on a company acquisition. With a payroll of 12 people at the end of the report period, it is the smallest of the Satama offices.

Satama UK did not reach the targets set for it in 2000 and for this reason it will be shut down during the spring. Current client projects will be finalized and developed further by other Satama offices.

USA (Satama USA Inc.)

Satama USA Inc.'s revenues totaled EUR 2.7 million. Including the EUR 1.1 million provision for restructuring, the operating loss for the report period was EUR 7.3 million and 43.3% of the operating loss for the entire Group. The entire goodwill obtained from acquisition of the D Animation company was written off and entered as a non-recurring additional depreciation of EUR 3.7 million under extraordinary items.

Despite its great market potential, Satama USA has generated the greatest losses of the subsidiaries and has not been able to increase profitability according to the planned timetable. Restructuring was effected during the summer and fall to improve performance. The slow growth in revenues, however, led to the discharge of the president, Bill Miller on 26 November 2000, and to the formation of a new executive group. Paul Gaither was appointed interim president. A new, more effective restructuring program was started in February 2001. The costs will be cut by discharging about half of the 48 people on the payroll at year end.

The company's customers include Nokia, Nortel Networks, 7-Eleven Inc., GTE, TGI Friday's, Warner Bros, Palladium, Enron, Canon USA, Hillwood Development, CityHomes and Truckload USA.
